POLICY SUMMARY

The Governor recommends \$571,082,075 to meet the Department of Corrections' obligations in the criminal justice system and provide appropriate incarceration, supervision, and treatment for offenders.

A weakened economy and considerable growth in mandatory programs like Medicaid has resulted in the most significant budget challenge the state has faced since the early 1990s. The Fiscal Year 2003 budget includes the deepest core reductions ever recommended by a Missouri governor. These core reductions are necessary to ensure a balanced budget while continuing to provide essential state services. There are relatively few general revenue fund increases recommended in the Fiscal Year 2003 budget, and those that are recommended focus on mandatory programs. Governor Holden's number one priority is to fully fund the foundation formula distributions to public schools.

INCREASING CAPACITY AND EFFICIENCY IN MISSOURI'S CORRECTIONAL INSTITUTIONS

Missouri statutes contain some of the toughest anti-crime provisions in the country. As a result, Missouri law now requires dangerous, violent criminals to serve longer sentences than ever before. These "get tough" provisions have resulted in a rapidly expanding prison population. During the last seven calendar years, Missouri's inmate population has grown by 10,695 inmates or 4.81 inmates per day, an increase of 234 percent over the historic rate of 1.44 inmates per day. During calendar year 2001, the population grew at a rate of 3.59 inmates per day, an increase of 149 percent over the historic rate. In order to uphold the fundamental obligation to protect Missourians from criminals, Governor Holden's Fiscal Year 2003 budget proposes a total increase of \$39,085,928 to meet the costs of the projected average daily inmate population of 29,819.

Tough laws have little effect without space to incarcerate offenders. To ensure that law abiding Missourians are separated from dangerous criminals, the Governor recommends providing a total of \$44.4 million dollars to open the Eastern Reception and Diagnostic Correctional Center in Bonne Terre, Missouri; continue the phased-in opening of Southeast Missouri Correctional Center in Charleston, Missouri; and maintain current interim housing at Algoa Correctional Center, Fulton Diagnostic and Reception Center, and Western Missouri Correctional Center (Cameron).

The addition of the Eastern Reception and Diagnostic Correctional Center will help ensure that Missouri prison capacity needs will be met. At full operating capacity, the institution will operate as an 820-bed intake unit serving as the point of admission for offenders committed in the eastern regions of the state. The remaining 1,768 beds will serve as housing for high custody male inmates. At the conclusion of its phased-in opening, Southeast Correctional Center will contribute another 1,596 inmate beds. Both the Eastern Reception and Diagnostic Center and the Southeast Correctional Center will be state-of-the-art correctional facilities that will serve Missourians not only by housing inmates but doing so through the most efficient means possible.

POLICY SUMMARY (Continued)

Some performance measures the Department of Corrections uses to evaluate its management of Missouri's inmate population follow:

| | 1999 | 2000 | 2001 |
|---|----------|----------|--------|
| Percentage of confined population to design capacity | 138% | 123% | 125% |
| Average daily prison population | 25,070 | 26,284 | 27,542 |
| Difference per day in inmate medical costs compared to national average | (\$1.93) | (\$2.60) | N/A |

Offenders must be prepared to live within the rules of lawful society if they are to be eventually released. Some performance measures the Department of Corrections uses to evaluate its efforts at holding offenders accountable to behaving in societal norms follow:

| | 1999 | 2000 | 2001 |
|---|-------------|-------------|-------------|
| Percentage of incarcerated offenders with a high school diploma or GED | 59% | 62% | 62% |
| Percentage of incarcerated offenders served by substance abuse programs | 33.0% | 42.0% | 40.3% |
| Percentage of incarcerated offenders testing positive for substance abuse | 2.4% | 2.2% | 2.3% |
| Percentage of probationers/parolees testing positive for substance abuse | 21.8% | 22.9% | 17.0% |
| Restitution collected from offenders | \$8,359,919 | \$8,913,142 | \$9,284,474 |

BOARD OF PROBATION AND PAROLE

The Board of Probation and Parole provides a full range of supervision strategies to manage offenders who are on probation and parole. These strategies combine appropriate structure, control, treatment, and intervention to address the risk and needs of offenders in the community. In addition to supervision of offenders, staff provides assessments and investigations for the courts, parole board, and other states. These assessments and investigations assist the judges and parole board in making informed and appropriate decisions on cases before them. Through professional assessment and supervision, the board is able to identify and deliver a continuum of necessary services to address a complex offender population. The board also manages a range of alternatives, including community sentencing, the house arrest program, intensive supervision, and halfway houses.
